Dear Congressman Rooney:

I would appreciate your assistance with the following:

I own 42 acres of mixed wetland and pine
woods. I would like to be able to access the
dry land for farming (Bamboo). To access this
I only need a trail wide enough for my tractor
and can put in pipes to still allow for water
flow. Please let me know if I am allowed
to do this and make it easier for farmers
to do things without fear of fines/penalties.
